Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

The Tracfone service is used by persons who cannot afford full time service or use the cell phone for emergency use only. I have it because I work in downtown Pittsburgh and must walk city streets and use public transportation late at night. Tracfone has been a godsend because I cannot afford a full time service at \$50 month. I only use a very few minutes each month to call building security to get in. The proposal to add Universal fees to this is absolutely outrageous. I already pay the fee on my phone bill and pager. Give us a break!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Richard Traeger
